SECTION 4. FIRST-AID MEASURES

4.1 DESCRIPTION OF FIRST AID MEASURES:

EYE CONTACT: If product enters the eyes, open eyes while under gentle running water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing for at least 15 minutes. Seek medical attention if irritation persists.

SKIN CONTACT: Seek medical advice if serious irritation occurs. However, the product is designed to be skin-safe with normal use, and adhesive residue may be removed from skin with Skinister Medical Adhesive Remover or isopropyl alcohol.

INHALATION: If breathing becomes difficult, remove victim to fresh air. If necessary, use artificial respiration to support vital functions. Seek medical attention.

INGESTION: Rinse mouth thoroughly with water and drink a small amount of milk, if available, to help dilute the substance. Never induce vomiting or give diluents (milk or water) to someone who is unconscious, having convulsions, or who cannot swallow. Seek immediate medical attention if more than a tablespoon was ingested, and take a copy of the label and/or Safety Data Sheet (SDS) with the victim to the health professional. Serious illness is unlikely in the event of smaller ingestion amounts

MEDICAL CONDITIONS AGGRAVATED BY EXPOSURE: Pre-existing eye problems may be aggravated by prolonged contact.

4.2 SYMPTOMS AND EFFECTS, BOTH ACUTE AND DELAYED:

Contact with eyes may cause temporary irritation

4.3 RECOMMENDATIONS TO PHYSICIANS:

Treat symptoms and eliminate overexposure.

SECTION 5. FIRE-FIGHTING MEASURES

5.1 FIRE EXTINGUISHING MATERIALS:

Use fire extinguishing methods below:

Water Spray:	No	Carbon Dioxide:	Yes
Foam:	Yes	Dry Chemical:	Yes
Halon:	Yes	Other:	N/A

Flash back possible over considerable distance. Vapors may form explosive mixtures with air.
Explosion Sensitivity to Mechanical Impact: No
Explosion Sensitivity to Static Discharge: Yes

5.3 SPECIAL FIRE-FIGHTING PROCEDURES:

Incipient fire responders should wear eye protection. Structural firefighters must wear Self-Contained Breathing Apparatus and full protective equipment. Isolate materials not yet involved in the fire and protect personnel. Move containers from fire area if this can be done without risk; otherwise, cool with carefully applied water spray. If possible, prevent runoff water from entering storm drains, bodies of water, or other environmentally sensitive areas.

SECTION 6. ACCIDENTAL RELEASE MEASURES

6.1 PERSONAL PRECAUTIONS, PROTECTIVE EQUIPMENT AND EMERGENCY PROCEDURES:

Provide adequate ventilation. Wear suitable protective clothing, gloves and eye/face protection. For large spills, or when multiple containers are involved, evacuate personnel to safe areas.

6.2 ENVIRONMENTAL PRECAUTIONS:

Discharge into the environment must be avoided. Prevent further leakage or spillage if safe to do so. Prevent spreading over a wide area (e.g., by containment or oil barriers). Retain and dispose of contaminated wash water. Local authorities should be advised if significant spillages cannot be contained.

6.3 SPILL AND LEAK RESPONSE:

Wipe up small spills with absorbent materials such as paper towels or rags. Remove remaining adhesive residue with Skinister Medical Adhesive Remover or isopropyl alcohol. For large spills, provide diking or other appropriate containment to keep material from spreading. If the dike can be pumped, store recovered material in appropriate container. Clean up remaining materials from the spill with suitable absorbent.

SECTION 7. HANDLING and STORAGE

7.1 PRECAUTIONS FOR SAFE HANDLING:

Flammable. Do not spray on a flame or any incandescent material, electrical appliance or source of heat. Keep away from sources of ignition - No Smoking. Keep out of the reach of children. Avoid spraying into eyes. Do not apply to open wounds or mucous membranes. Discontinue use if irritation occurs. Avoid inhalation of vapor or mist. Take care to prevent spills, waste and minimize release to the environment.

7.2 STORAGE AND HANDLING PRACTICES:

Keep away from incompatible materials. Keep in a dry, well-ventilated area in closed containers. Protect containers from physical damage. Keep container tightly closed and sealed until ready for use. Store in accordance with local regulations.

7.3 SPECIFIC USES:

Medical Adhesive. Intended to temporarily adhere appliances to skin, such as ostomy pouches, breast forms, and condom catheters.
